Subject: Mini Project & Internship

Subject Code: BTCME607P

Load	Credits	College Assessment Marks	University Evaluation	Total Marks
2 Hrs (Practical)	1	25	25	50

Course Objective:

1	To develop an understanding of applications in real life
2	To develop research skills of students
3	To help the students in exploring career opportunities in their areas of interest
4	To give an insight into the overall functioning of the organizations where students visited
5	To develop Industry Institute Interaction
6	To provide means to immerse students in actual supervised professional experiences.

Constraints:

1. Students shall work in groups of 4-5 each and work on small application or research based / Industry Oriented real time problems.
2. Local Mentor and Industry mentor shall work in coordination.
3. Industry visit should be planned to explore students about real time problems.
4. Students shall work on providing solutions to identified problems.
5. Detailed reports are expected to be submitted at the end using Standard Technical Writing Tool.
6. Evaluation should be done based on feedback of Local and Industry Mentor.

Expected Outcome:

1. Real Time Problem Identification
2. Requirement analysis and identification of relevant data sources
3. Literature survey / Industrial survey
4. Overall Project development as per the phases of SDLC

Web-development

Aim

To build an e-commerce web-site/application using React.

Introduction

Nowadays the first thing that someone does when they create a new profession for trading good is to convert their commerce to e-commerce. Many professions even prefer to have e-commerce as their only mode of doing profession. The potential of e-commerce is nearly limitless, reason for which we'll be going on a ride to create an e-commerce solution on our own.

Abstract

1. Profession, have lot of competition. They are always on the lookout for a proven way to increase their profession revenue.
2. Restaurant, retail shops, vape store whatever a profession may want to sell.
3. Professions have to accept and put up a website to address. E.g., amazon is a prime example of contriving a satisfaction e-commerce site.
