6.5.1 Internal Quality Assurance cell (IQAC) has contributed significantly for initializing the quality assurance strategies and processes. It reviews teaching learning process, structures and methodologies of operations and learning outcomes are periodic intervals and records incremental improvement in various activities.

The Internal Quality Assurance Cell (IQAC) of the college is established in 2017. The constitution of IQAC has external experts for industry, society and representation from parents, alumni, and students. All the departmental senior members and heads of the department are members of IQAC. It also has representatives from the library and administrative office. The role of IQAC is defining the quality standards and thus quality policy and ensuring the defined quality services in all most all the processes / services of the college.

Academic cell in consultation with IQAC prepares the Academic Calendar in accordance with the University Academic Calendar. It is circulated to all faculties. All faculties prepare their teaching plan accordingly. The IQAC committee takes the review of the syllabus completion through internal audits from the Heads of the departments to ensure smooth conduct of classes. IQAC ensures quality in the teaching learning process by taking feedback from students about the teaching learning process. The counseling is done by principal, Dean Academics and Heads of the departments for faculties whose performance is not satisfactory. IQAC has a quality policy for academic processing.

IQAC ensures the smooth and timely conduct of sessional examinations and internal practical examinations for every semester every year. IQAC has prepared the standard operating procedure for the project allotment / implementation / status review and SoP is circulated to all departments. The examination reforms are discussed in the meeting of IQAC, and a few feasible reforms are incorporated in the internal examination pattern.

Course Outcomes are specific and measurable statements that define the knowledge, skills, and attitudes learners will demonstrate by the completion of a course. The benchmarks are set by IQAC for attainment of course outcomes. In the regular meetings of IQAC the result analysis for all semesters is discussed. The program outcomes, Program Specific Outcomes and articulation matrix is also discussed and the actions to be taken against analyzed gaps are also discussed and finalized in the meeting and directions to the departments are also given as a follow-up action.

MOOCs provide an affordable and flexible way to learn new technologies. Students and faculties are encouraged to undergo NPTEL courses. Faculties are encouraged to participate in various FDPs, workshops, conferences, and training programs, file patents / copyrights, journal publications. For non-teaching staff various workshops are arranged by samstha to upgrade their knowledge.

IQAC conducts regular academic administrative audits. It is done thrice in the semester. It is done by the academic audit committee under IQAC cell. External audit is also conducted this year by the external members to ensure the timely completion of the internal audit.

IQAC ensures the timely submission of AQAR every year and participation in NIRF every year.

IQAC has directed all departments for getting into the MoUs. The college has signed a MoU with 50 + industries and organizations. Looking into the need of industry an IQAC directs all departments to conduct skill development programs undertake industry-based projects and internships, visits, etc IQAC also ensures quality assurance in processes other than academics.
