

Student Satisfaction Survey

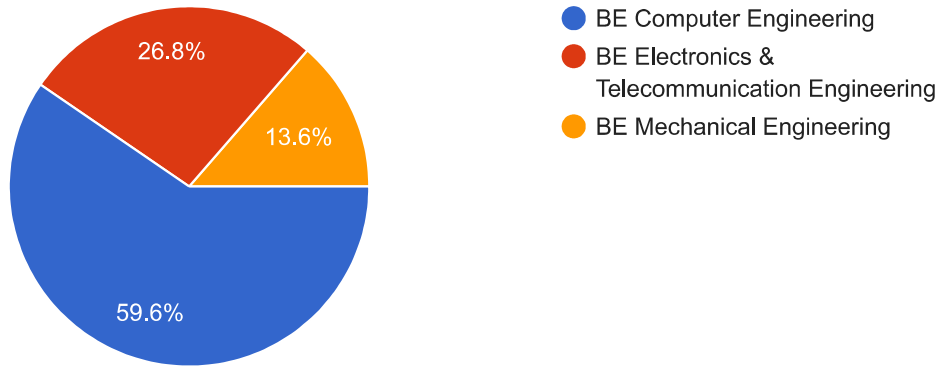

235 responses

Instructions to fill the form-- 1. All questions need to be answered. 2. Each question has 5 responses, choose the most appropriate. 3. Last question is about student's opportunity to give suggestions or improvements. You also can mention weakness of the institute/department/teacher here. 4. Kindly restrict your response to teaching learning process only.

Your Degree Program

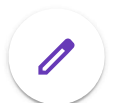

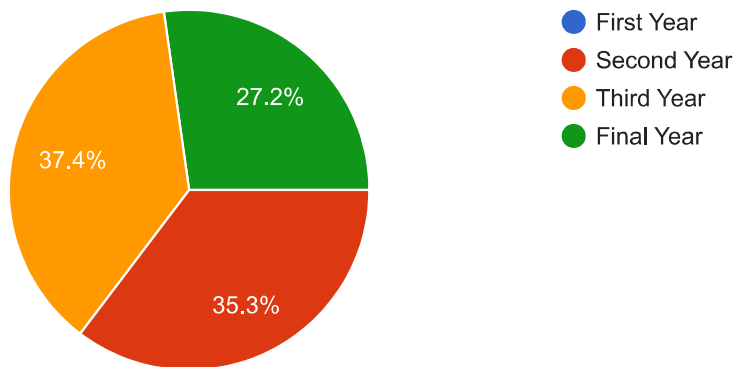

235 responses

Year of study

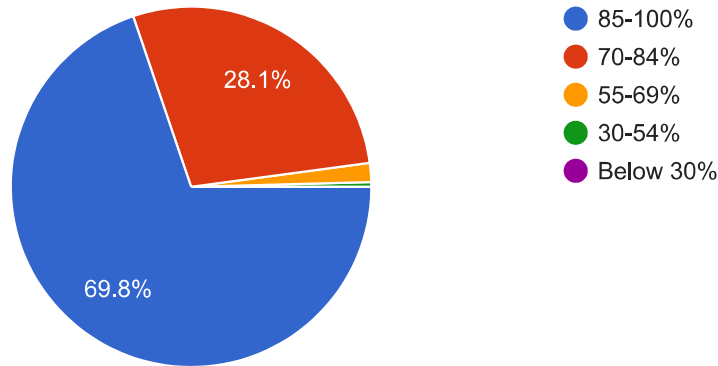

235 responses

How much of the syllabus was covered in the class?

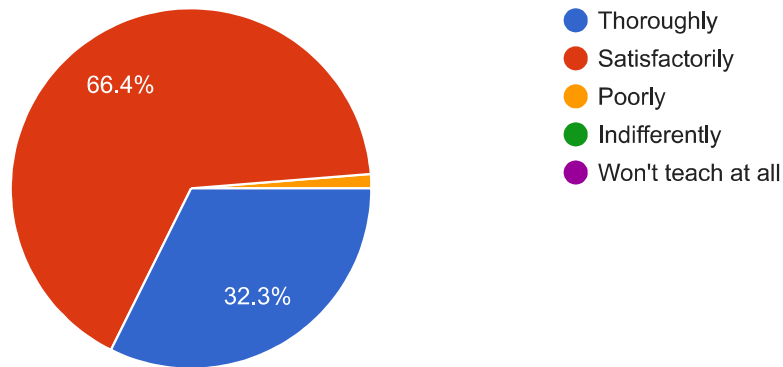

235 responses

How well the teachers prepare for the classes?

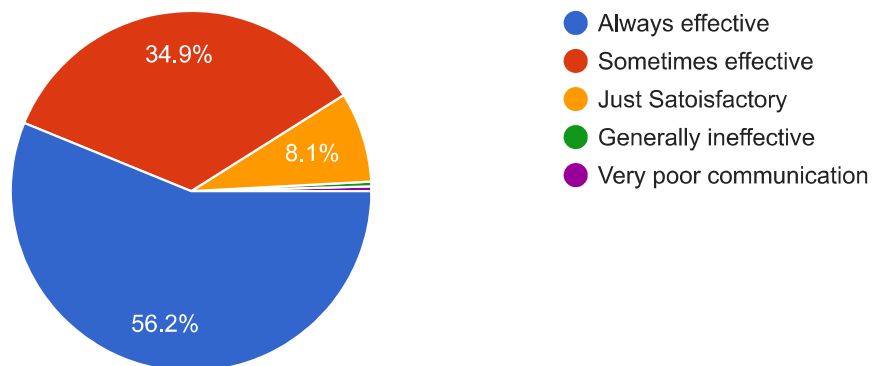

235 responses

How well were the teachers able to communicate?

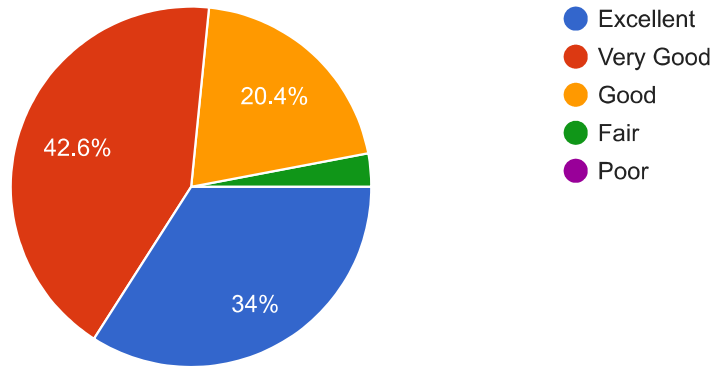

235 responses

The teacher's approach towards teaching can best be described as

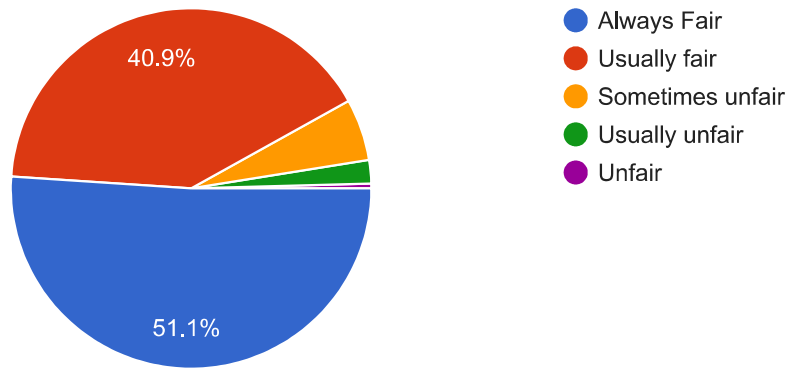

235 responses

Fairness of the internal evaluation process by teachers

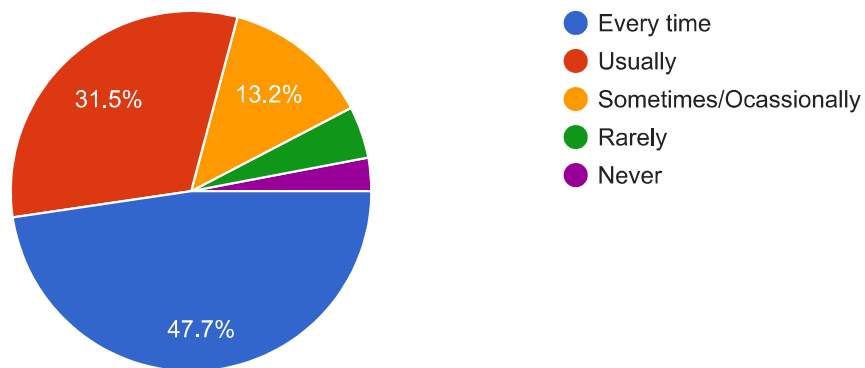

235 responses

Was your performance in Assignments discussed with you?

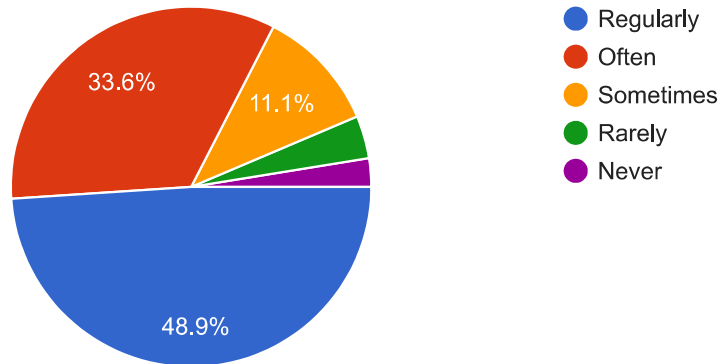

235 responses

The institute takes active interest in promoting internship, student exchange, field visit for students

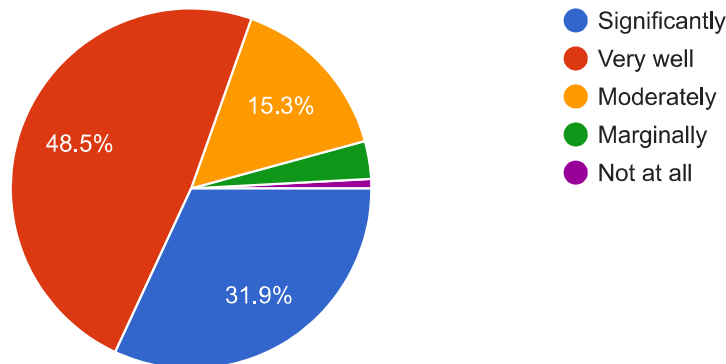

235 responses

The teaching and mentoring process in your institution facilitates you in cognitive, social and emotional growth

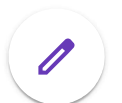

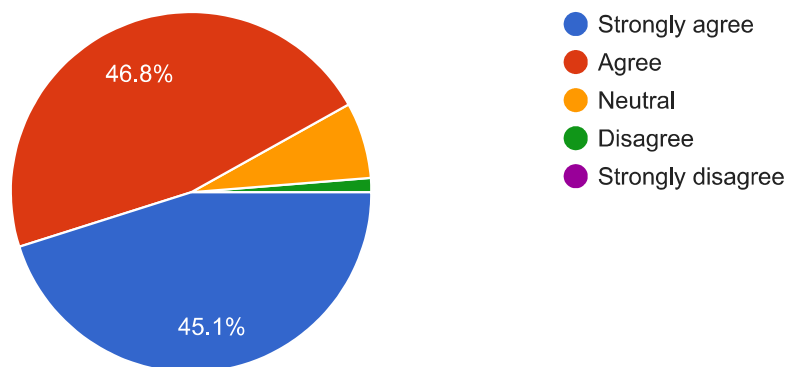

235 responses

The institution provides multiple opportunities to learn and grow

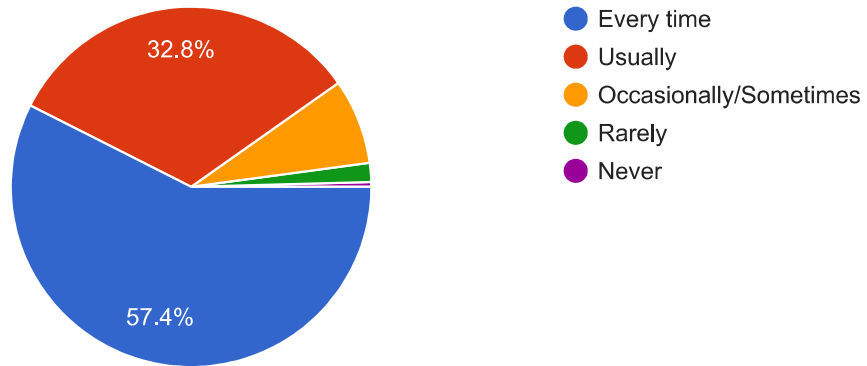

235 responses

Teachers inform you about your expected competencies, course outcomes and program outcomes

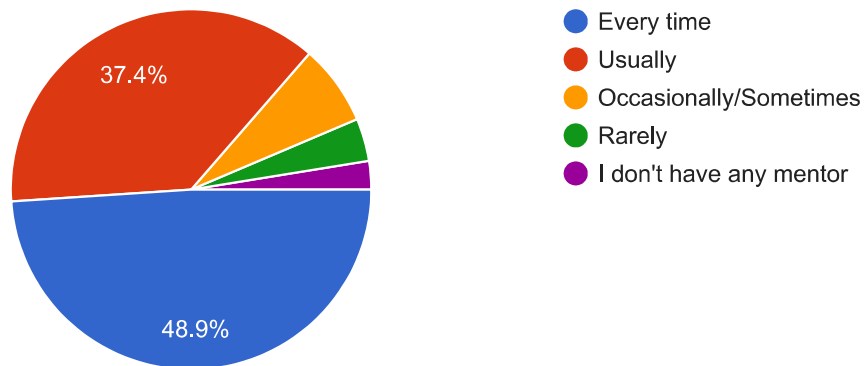

235 responses

Your mentor does a necessary follow-up with an assigned task to you

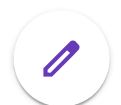

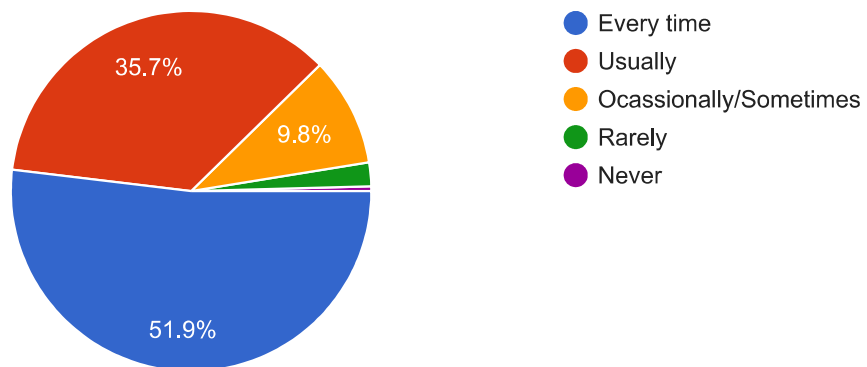

235 responses

The teachers illustrate the concepts through examples and applications

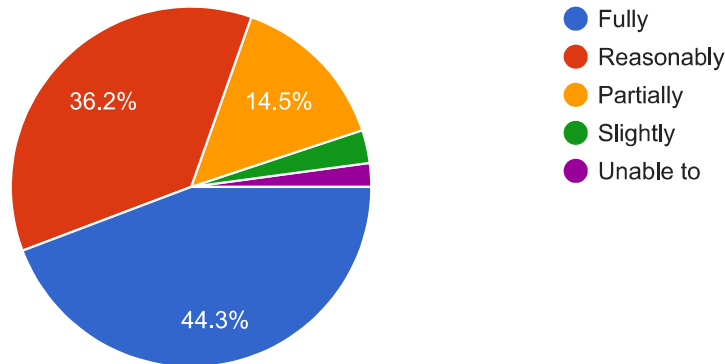

235 responses

The teachers identify your strengths and encourage you with providing right level of challenges

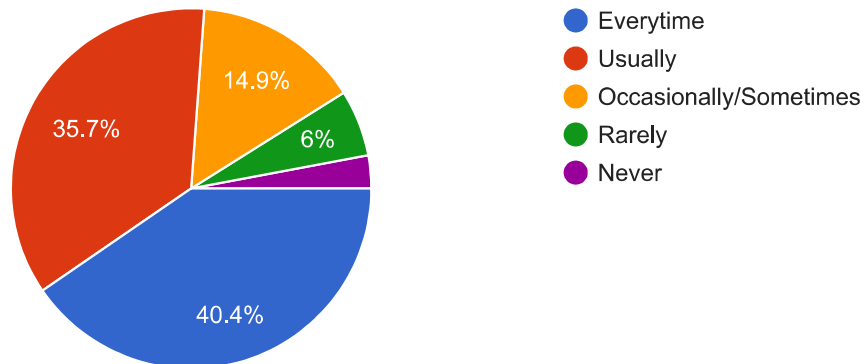

235 responses

Teachers are able to identify your weaknesses and help you to overcome them

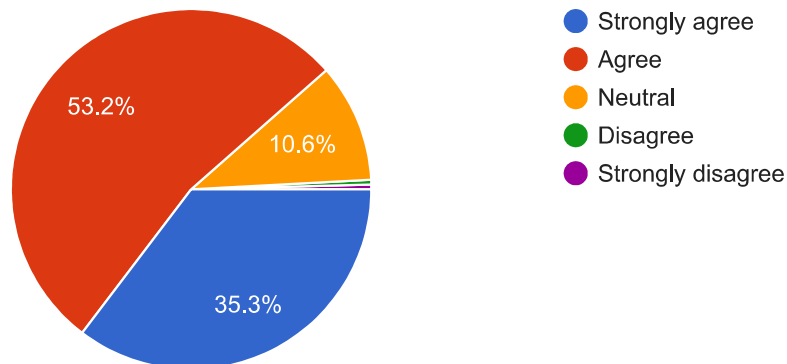

235 responses

The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process

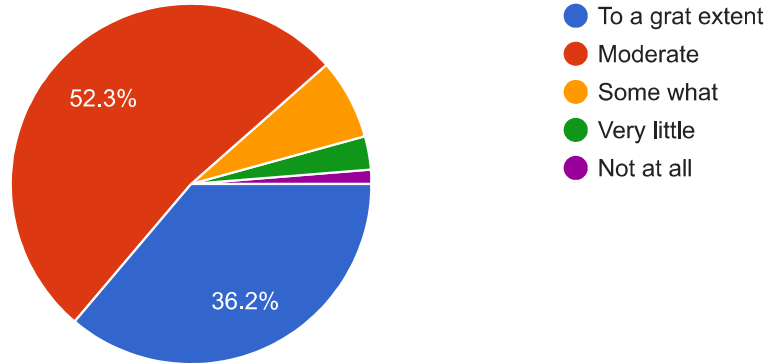

235 responses

The institute/teachers use student centric methods, such as experimental learning, participative learning and problem solving methodologies for enhancing learning experiences.

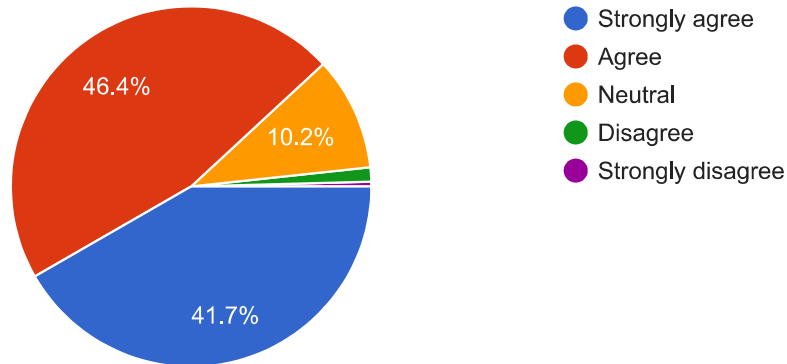

235 responses

Teachers encourage you to participate in extracurricular activities

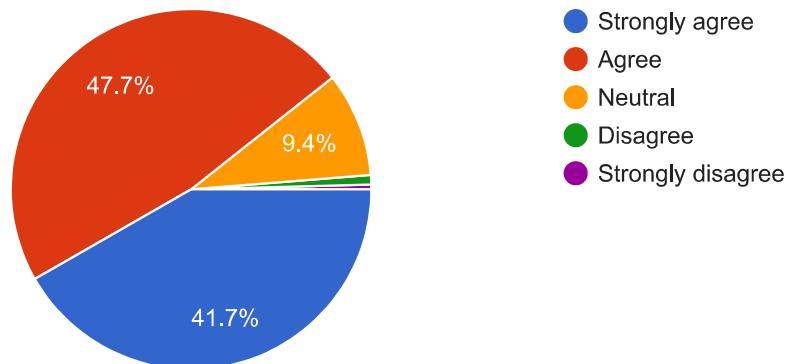

235 responses

Efforts are made by the institute/teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work

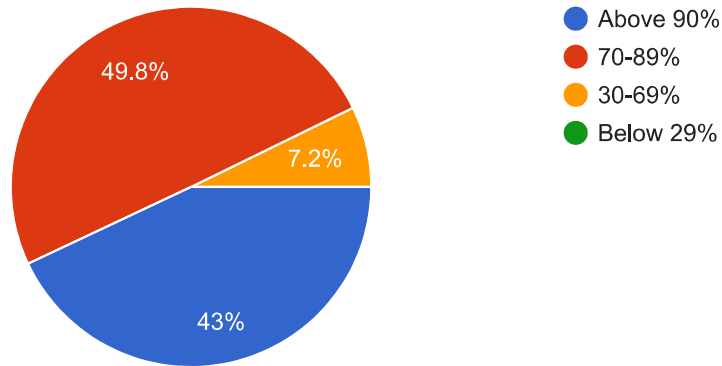

235 responses

What percentage of teachers use ICT tools like LCD projector, Multimedia while teaching

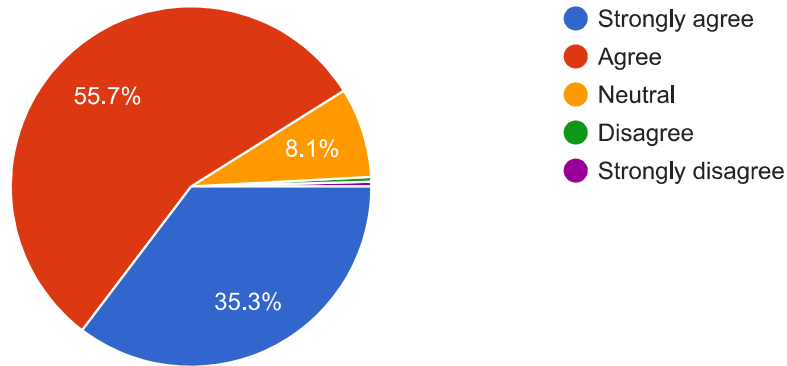

235 responses

The overall quality of teaching-learning process in your institute is very good

235 responses

Give your observations/suggestions to improve the overall teaching-learning experience in your institution

No suggestion

Good

...

Teacher is quite rough to communicate.

All are good

All things are really very good

Its quite satisfactory.

They should complete there syllabus before 10 days before sessional test

Encourage self learning and cooperative learning

All is well and good...

Teachers should try more interactive and creative way to teach the subjective knowkedge.

Its good

real life examples

Try to show some empathy and hold face to face communication with student

Experience is good

I don't have any suggestion.

Provide all subjects question bank and previous year question paper

Peer teaching must be taken atleast once in a monthI think this enhance our confidence, understandability of the particular topic and learning ability .

Thank You

Please reduce assignments and give more opportunities

-

Teaching in our institute is great ✨

Try to encourage the students .

Professor's take lot of efforts towards the whole growth of a student

Nice experience

—

Nothing to add

The use of Microphones in class during lecture for teachers would be of a great help for us

Teaching method should be made more practical based rather than rote learning.

N.A

Teaching is good in our department but management is very poor of the college .More facilities and safety must be required for students sake.

Use of new Technology

Should explain it by practically and more examples to understand the basic concepts of topic.

No suggestion

Very well experience

The lab instruments should be replaced with good working instruments. More fun learning activities must be conducted to make learning more stress free

Faulty lab instruments should be replaced by new ones.
Classroom should be more spacious for students to accomodate place.

Teacher's are always support to all students . But we students are have small extra efforts from teachers .

All the teachers are teaching in very appropriate way. Every student gets a chance to perform practical. Our institution's management is at an excellent.

Give the assignments that need a lot of research, reading and analytical skills.

Focused on academic and programming language as well as .

If we are learning some thing or some topic on that the experiment should be done.

Nothing

Small fun projects should be incorporated.

It's good over all

Our institute need that type of teachers who treat each and every student equal and never did partiality with anyone because each student's have there dream there parents also having the same hope and with the same hope they send there child. So it's a humble request to our institute management that please treat everyone equal 😊.

no suggestions required each faculty is trying to give there best. There should be a speaker and mic system included in our class.

The time provided for completion of syllabus was just not enough and the teachers had to rush through the classes which lead to weaker understanding of the subjects.

Instead of using projector everytime some teacher should evaluate that concept on borad

Please try to focus on practical knowledge rather than to give many assignments

NS

More focus on hands-on and experimental/participative learning, with special time and encouragement for extracurricular activities.

All the teachers are very well in providing the the educational details of each and every subject as pr the requirements and prepare thoroughly for the university examination.

Best and satisfying

There is a good education policy followed in the college but there is always a place for improvement . We need to increase quantity and quality of teachers in our college.

Teaching should be more practical based , field visits , industrial visits play an important role too .

There is no need to change anything in teaching, everything is perfect here!

Try to reach every student and ask for their doubts.

All good

..

Satisfactory

College should emphasize more on practical based learning

Teaching and learning is good but also some interactive activities need to conduct do student should not get bored at the time if lectures.

It can be more effective if ... opportunities are increased and practical knowledge must be increased

It could be more effective if we increase opportunities and give attention towards practical knowledge rather than book knowledge

It could be more effective if we increase opportunities....and to give attention to the current technologies....

THE TEACHERS SHOULD NOT GIVE INTERNAL PRACTICAL GRADES ON THE BASIS THAT WHETHER THEY WERE PRESENT ON THE PRACTICAL DAY OR NOT(THE STUDENT MIGHT BE ABSENT DUE TO MEDICAL ISSUE) , BECAUSE ONE OR THE OTHER DAY STUDENT PERFORMS THE EXPERIMENT . SO THEY MUST GIVE GRADES ON THE BASIS OF THE KNOWLEDGE A STUDENT HAVE & HOW WELL THEY PERFORM THE EXPERIMENT . AS WELL AS THE TEACHERS MUST HELP STUDENT IN CASE THEY HAVE ANY PROBLEM IN HANDLING THE EXPERIMENT TOOL/KIT WHILE PERFORMING THE EXPEIMENT , A STUDENT ASK YOU ONLY IN CASE THEY HAVE ANY DOUBT /DIFFICULTY , IT DOESN'T MEAN THAT THE STUDENT DOES NOT KNOW HOW TO HANDLE TOOL/KIT . I THINK MY POINT WILL BE TAKEN IN A POSITIVE WAY . THANKYOU!

Attendance should not be compulsory

Students should be allowed to do self study and no compulsion from college should be made for attending classes

Teachers should provide us with notes of theory

Their should be more practical example then theory...so it will be easy to understand concept

Overall great learning experience

Not to give more assignment other than that focused on practical knowledge

Really good college, satisfactory

The teaching experience is really good but what can be improved is more practical based labs being able to perform pratials surely help us in upcoming years

I request you to provide teachers with a microphone during teaching as the students sitting at the back benches are unable to hear them more often

No Suggestions

Good.

N/A

teaching process is good

Overall the teacher's are very understanding and easy to communicate with.

Na

It was good and so much efficient for me the study style and all

Ok

Teacher should not do partiality, we all are paying for education, i agree that we are an average students but we also want a good placement but teacher do favouritism and gives opportunity to them only, as we are a student we notice this daily.
