B. Infrastructure and Lab Facilities

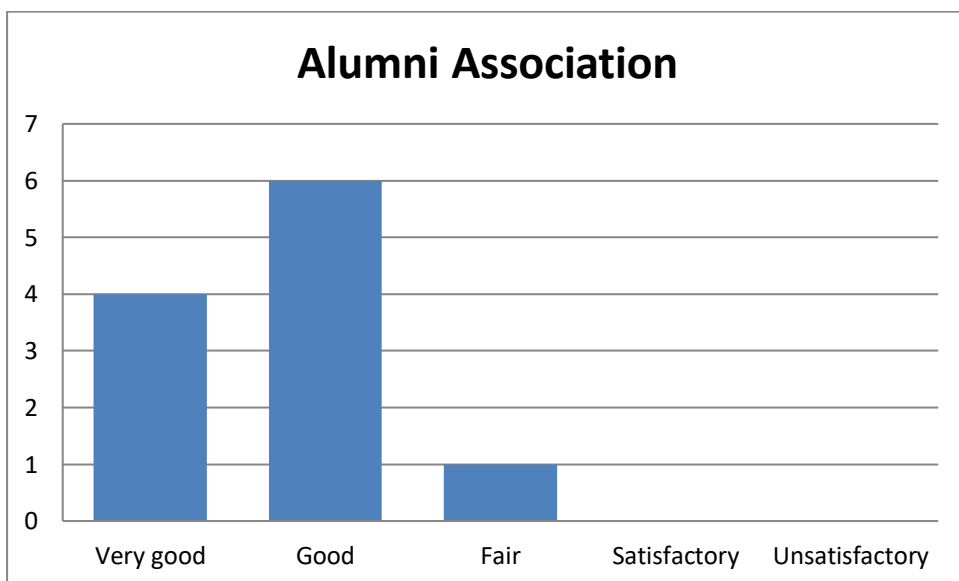

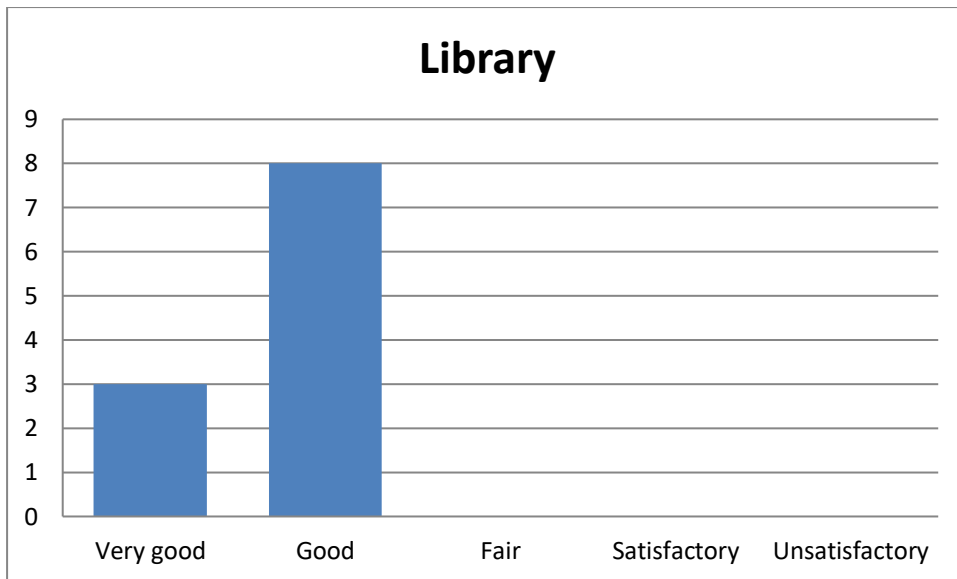

C. Faculty

D. Project Guidance

Suggestions:

- Should focus more on placements
- Guidance about GATE should be provided
- Students should be given training and practice of coding
- Student should get the chance to work on live Projects for their mini or mega project

Action taken:

- Opportunities every year are almost increasing with increasing number of placements. Coders club, Hacker rank, hacker earth and other platforms are made aware to the students for practice.
- Some of the students are working on some mini projects from the industry.

Shivani is a good asset for the company. Suggestion for Institute / Collage - Need to provide more practical exposure to the students during academics. Student should have clarity on different types of industries. It will help them to get acquainted with the working atmosphere. Student while appearing for campus should have clear thought regarding his / her career to be pursue in life. Which will reduce the initial attrition of the organization and will help student to approach towards their interested industry.

All are good.

No suggestions

Suggestions:

- Need to provide more practical exposure to the students during academics
- Student should have clarity on different types of industries

Action taken:

- Students are exposed to skill development training in every semester either from faculties or from industry experts.
- Students are made aware of the opportunities in industries well in advance in third year itself as well as before appearing to the actual process.
